

## Renzmann M 20 Distillery (Solvent recovery)

**Distillery (Solvent recovery) Renzmann M 20 with vacuum**

Year of make: 1994  
Condition: ready for operation, very good,  
Location: Flexo-Technic Handelsl GmbH, 63456 Hanau b. Frankfurt

After distillation you can use your solvent from production again.  
This is economically and ecologically.  
The Renzmann M 20 distillation system distills batch by batch,  
in a user friendly process.  
You will save money from the first start.

Vessel Capacity: 360 l - Filling Capacity: 225 l

Recovery rate: 30 - 60 l/hr\*

\* depends on saturation of the solvent.

Code: 12141
